INTRODUCTION

RockCyprus aims to build a central interaction point for the rock community on the island.

We unite rock music enthusiasts and create a central point of communication and a hub of the rock souls in Cyprus.

To be able to bring out the best of what you have to offer, in the following pages we have listed the options and guidelines for what information is covered and how it should be provided.

It shows both the mandatory information [*] and what additional information sections is optional.

SECTIONS

A Studio Mini-Page contains the following sections:

1. Main image
2. Studio introduction
3. Studio team
4. Social media / online presence
5. Future events
6. Image gallery
7. Album listing
8. Multimedia gallery
9. Merchandise

Provide the information in WORD or EXCEL, we can provide you with a template to fill!

Images must be provided in JPG and HD+ quality

HD quality: 1920 x 1080 minimum
LS: Landscape image

Items marked with * on the following pages are basic requirements!!

1 - MAIN IMAGE

Provide the main image in HD+ quality and in Landscape format, but keep the following in mind:

High Quality images (not downloaded from your social media galleries!)

- The main image for your page.
- Photos of each of your team members. Don't forget to mention names and what they do in your studio.
- Photos from your work for a gallery on your portfolio.
- Album covers that were recorded at your Studio.
- Keep in mind: The more you provide the better your page will look! But... quality matters!
- At least 1920x1080 px, preferably larger, jpg format.

Why downloads from Social Media will not work?

As soon as you upload images to your Social Media account, FB or Instagram automatically compresses (resizes) them. When you download them again, they remain small and much lower in quality.

Therefore, original photos only! Simple as that! If you don't want your fans to see you looking like one big pixel, please send original images.
